Re: **Player Cards and participation of players**

According to *bye laws 18.5.3.2* of the Western Province Rugby Football Union's Constitution

"Before the commencement of each rugby match in the first, second, third and under 20 leagues, the cards of the players participating in the relevant match **must be handed to the referee** officiating in that match, or on request to the opponents. Should any cards of players participating in a match not be handed to the referee or the opponents before commencement of the relevant match such players may not participate in the match. The referee must report all transgressions of player cards to the Chief Executive Officer of the Union for disciplinary action"

It is the club's duty to ensure that all the players are registered and that they are in possession of all their player cards. The Union will not take responsibility for those clubs who do not have player's cards.

If there are any clubs who do not comply with the above please complete attach form and return as soon as possible.

Your co-operation and support is needed to ensure the success of Western Province Club Rugby.

Good luck and all the best for the Season ahead.

Regards

HD Abrahams
